

Going Beyond Carbon: Sustainable Value Chains

Join us for an evening of excellent conversation and food with guests and speakers from leading businesses across the Consumer Products, Retail, Telecommunications, Media, Technology and Pharmaceutical Industries.

Joined by our Baringa experts, who have worked on the ground to transform global value chains, we'll tackle some of the most demanding and urgent challenges to Sustainable Business and the race to the real zero – going beyond Carbon.

THURSDAY 2nd FEBRUARY

Our guest speakers

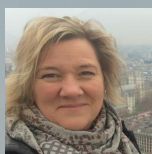

Lucy Carver

Sustainability & ESG Advisor at Nepean. Formerly Chief Sustainability Officer at Sky

Benet Northcote

Trustee at Green Alliance. Formerly Director of Corporate Responsibility for the John Lewis Partnership

Carrie Lomas

CEO of two 'purpose with profit' companies: EYFSHome and Brand Conscience

Guest speaker profiles:

Lucy Carver is a senior sustainability and ESG consultant and advisor, advising clients across multiple sectors on sustainability & ESG strategy, operations, and communications. She has an extensive record of creating, operationalising and communicating best-in-class sustainability & ESG strategies, which help protect and drive business value and reputation, with over 20 years' experience across both the private and public sectors.

Carrie Lomas runs 'purpose with profit' companies, one in EdTech (educational technology) and the other in sustainability for retail, 'Brand Conscience' which connects consumers to their buying choices by providing a universal scoring & labelling system which enables consumers easily to compare the sustainability of their clothes. Prior to setting up her two startups, Carrie worked in two technology corporations: Intel and IBM.

Benet Northcote is a senior adviser to businesses and NGOs. He was formerly Director of Corporate Responsibility for the John Lewis Partnership. He has been Deputy Private Secretary to HRH The Prince of Wales and Chief Policy Adviser to Greenpeace UK. He is a Trustee of Green Alliance, the UK Centre for Ecology and Hydrology and is Deputy Chairman of the Conservative Environment Network.
